Arthur C. Yan Appointed President and COO of Quantum3D

SAN JOSE, CA—September 17, 2009 – Quantum3D, Inc., a leading provider of open architecture, realtime 3D visual computing solutions for the Visual Simulation and Training (VST) and Embedded Visual Computing (EVC) markets, announced today that Arthur C. Yan will take over the role as President and COO of the company.

Carl Berg, Quantum3D's chairman of the board, marked Mr. Yan's appointment by saying, "Arthur has been an executive at Quantum3D for over 5 years and has over 25 years of management experience in the industry. His experience and leadership expertise will enable us to develop the growth potential of Quantum3D."

Arthur C. Yan joined Quantum3D as Vice President of Operations in March 2004, bringing more than 25 years of global manufacturing, outsourcing, procurement and operations management experience. Prior to joining Quantum3D, Mr. Yan was Vice President of Operations at Digital Archway and Evans & Sutherland/AccelGraphics. Mr. Yan also held manufacturing engineering management level positions with Kubota Graphics Corp./Stardent/Ardent Computer, Amdahl, Flextronics and Rolm. Mr. Yan holds a BS Degree in Electronics Engineering Technology from Cogswell College of San Francisco.

"Quantum3D has incredible assets and talented employees. I look forward to taking on this new role and working closely with each employee and the senior management team to enhance the products we deliver to our customers" stated Mr. Yan.

About Quantum3D

Quantum3D, Inc. is a leading developer and manufacturer of Commercial-off-the-Shelf (COTS), open-architecture, real-time visual computing solutions. Quantum3D combines the most advanced hardware and software systems for graphics simulation in a variety of markets and implementations—image generation; tactical computing for avionics; vehicle and man-wearable applications; synthetic environments; graphics subsystems; and other COTS solutions. Quantum3D is a privately-held company headquartered in San Jose, California. For more information about Quantum3D real-time visual computing solutions, please visit www.quantum3d.com.
