Quantum3D Selected for Moving Map In-Flight Displays

SAN JOSE—October 16, 2009—[Quantum3D, Inc.](http://www.quantum3d.com), a leading provider of Commercial-off-the-Shelf (COTS) real-time visual computing solutions, today announced that it has been selected to supply its high definition three-dimensional (3D) mapping system as the centerpiece for Honeywell's new Ovation Select In-Flight Entertainment (IFE) system.

Actual Screenshot of Ovation Select Moving Map

The Ovation Select moving map combines Quantum3D's IData Human Machine Interface (HMI) with IDataMap for displaying scalable geospatial data in deeply embedded environments and IData 3D Embedded Real-Time 3D Scene Manager.

According to Mike Gyde, Quantum3D Embedded Business Development Manager, "We are pleased to work with Honeywell, a leader in Cabin Management and Inflight Entertainment technology. Quantum3D's IDataMap specifically tailored to meet Honeywell's unique requirements promises to bring unprecedented features and functionality to Ovation Select™ products."

Quantum3D, the Quantum3D Logo, IData, IData3D and IDataMap are trademarks or registered trademarks of Quantum3D, Inc. All other trademarks are the property of their respective owners.
